

FAQ

Party Planning Questions

What age group do we cater for?

Discos are for all ages, recommended from 5 years up. We can cater for low key party to a high energy disco. Its not just the kids either, we can accomodate parties for any age group.

What's a good number of people to invite?

Discos can be scaled to suit any number of people. One great advantage is you are not paying on a per person rate unlike lots of other activity based parties. 12 is a good starting number to create a party atmosphere although we have hosted great parties with fewer people.

Where is the best place to have the party?

We can adapt to your location so it's completely up to you, be it at home, or in a venue of your choice. Indoors is best as the lighting and sound levels are easier to control. Outdoor parties are affected by wind, rain. Some venues do not allow smoke machines and have limits on the noise level which we can assist with. Best to check in advance with your venue. Also we recommend letting your neighbours know you are having a party and what date and time it will be on. Generally our parties do not get that loud, however we find this courtesy helps to ensure good relations.

Should we darken the space?

We suggest that a location is darkened to help create that disco atmosphere (particularly if you choose a day time party). Indoor spaces are easier to control lighting. Complete/controlled darkness does increase the impact of the lighting effects.

How many people should we have to run our D.I.Y disco?

Two parents is fine for a smaller party. more than 12-16 kids and then an extra friend or two to help is even better. Allocate whoever is the more tech savvy person to keep an eye on the music, and one outgoing person that knows some of the kids to help with games - remind everyone to take lots of photos. As a parent it is best if you are free to organise the food and cake and to ensure that the birthday child is being given all the attention they require on their special day.

I don't have any music?

We have plenty of playlists that we can share through spotify. We can tailor playlists to suit your personal preferences. There are lots of playlists on spotify but we have found that even though they say child friendly there are instances of adult themes and language present which you may not approve of. Discuss your personal preferences with us.

I don't have spotify?

If you would like to use our playlists, register with spotify premium. They provide a free trial for one month so you have time to get familiar with the platform and the playlists before the party.

FAQ

Tech Questions

How simple is the D.I.Y disco kit to set-up?

D.I.Y disco kits are the core package, a set of disco lights with easy-up stand and the sound system. We will provide a link to a video demonstration of the set up and a checklist in advance and go through any questions you have on the day of pick-up. Because these are professional systems there is some set up involved but we have simplified it and give clear instructions and support.

How simple are the disco kits to run?

Once the system is set-up just plug into your mobile or laptop, power on the system and play music. Control of volume levels is as simple as changing the volume on your device.

What input is the connection between the device and speaker system?

Our 3.5mm aux cable fits all standard headphone sockets for phone/laptop/tablet . Note that newer iPhones need an adaptor. Bluetooth is not currently supported

General Questions

How do I pay?

To keep things simple, we will email an invoice to you. Payment is best through online bank transfer, this should be made at the time of booking to secure the equipment for your event.

Where do you deliver?

We are based on Auckland's North Shore, we can deliver to metro areas depending on availability - delivery charges do apply. Rural and remote areas are possible by arrangement.

How can we help make the party a success?

Keep it simple. The most successful parties avoid too many additional distractions.

How long do we get the equipment for?

We anticipate that most kids parties will be 2-2.5 hours long. If we are setting it up for you, we would aim to have it all in place, allowing time for a demonstration/handover, at least 30 mins before guests arrive, we will come to pack out shortly after the end of your party.

If you are doing the DIY option then we schedule collection on the morning of the event after 11am with return the following morning by 10am. We understand how busy life can be and we are open to facilitating alternate arrangements at our discretion
